

## Why join Wildlife Queensland?

### Our local branches!

Queensland wildlife issues need a wildlife organisation based in our State.

You can find Wildlife Queensland branches around the State: up and down the coast and inland too. Members can get together with other conservation-minded people and work on together on local issues.

### Our members!

All types of people are Wildlife Queensland members and supporters – land owners, lawyers, students, pensioners, business owners, and parents. We're the conservation organisation that brings city and country together.

### Our valuable projects!

Our wildlife projects support wildlife from the ground up.

Wildlife Queensland's projects help protect wildlife, build community capacity, and enhance habitat. Quolls, gliders, echidnas and platypus all benefit from our current programs.

### We speak up for wildlife!

We campaign for better wildlife outcomes.
